Town Board Votes to Retain Status Quo for Refuse & Recycling

Recycling Center Would Be Relocated To Accommodate Commercial Development

On October 1st, the Town Board unanimously agreed to continue to provide curbside refuse collection and to operate a drop-off recycling center. This decision came after months of deliberation on several service delivery options. These options included contracting with a private vendor for curbside collection of refuse and recycling, having Town employees collect refuse and recycling curbside, contracting for curbside recycling only and maintaining the status quo whereby the Town collects refuse at the curb and residents bring recyclables to the Town's recycling center.

In recognition of the development potential of the recycling center property, the Town Board directed staff to market the recycling center property to developers. The Town would relocate the recycling center to another property if an appropriate development opportunity were to arise.

Town of Cedarburg, Wisconsin

The Town of Cedarburg, which is home to Wisconsin's last [covered bridge](#), strives to maintain its rural charm and high-quality of life while balancing growth and progress.
